## Features That Make Our Program Unique

**Instructors:** Jeff Stankiewicz and Ted Squires are certified Master Black Belts, having trained over 1000 GBs and BBs globally. They are also Lean Six Sigma specialists, bringing 'how to truly execute successful projects' into the classroom

**Lean Six Sigma:** Incorporates and fully integrates BOTH Lean and Six Sigma disciplines

**Progressive Training, 2+2:** Green Belts and Black Belts attend the 1st two training weeks together. Black Belts continue for an additional two weeks

- *Prior trained Green Belts desiring Black Belt training only need to attend the final two weeks of any of our classes*

**Comprehensive Hands-On Practice:** Simulations and exercises used throughout to provide multiple cycles of practice in usage of key concepts and tools in an integrated manner, deepening retention and ensuring their effective application within students' projects

**Project Mentoring:** Included to create a Project Charter and during training

**Certification:** Available, requires the completion of one or more projects

## Testimonials

"Your instructor transferred knowledge better and kept me more engaged than anyone who has taught me before! That includes any primary and secondary school teachers, all the way through earning my Ph.D. Thank you!"

"Both trainers were excellent, very enthusiastic, and passionate about the subject, which makes learning more fun."

"Clear, succinct presentation style, a subject matter expert with the experiences to match"

"The instructor had a very strong and in-depth understanding of the materials. He used a variety of presentation methods, exercises and real-world examples. He kept me engaged."

"Exceptional knowledge of the subject"
